INNOVATING Healthcare

With Passion & Commitment
KCK Pharmaceutical Industries Sdn. Bhd. (KCK) was incorporated in Malaysia as a private limited pharmaceutical company on 29th July, 1992. KCK was acquired by UNIMED SDN BHD in year 2008. Since then, KCK has ventured into manufacturing a wide range of pharmaceutical product across Malaysia and in the ASEAN region.

KCK’s manufacturing plant is located in the heart of Southeast Asia, Penang, Malaysia, making it a perfect regional location for efficient export and supply activities across the globe. This manufacturing site complies to the requirements of Good Manufacturing Practises (GMP) and is credited with a PIC/S certification issued by National Pharmaceutical Regulatory Agency (NPRA).

KCK is known for supplying high quality products for and affordable price. KCK is currently present in the ASEAN market and is determined to explore the international market as part of its progressive plan. The company has recorded a steady growth over the last 10 years and its achievement is made possible by leveraging into its manufacturing strength, increased presence in ASEAN market with continues launches of new products and by concentrating on innovative research and development to match the industry’s need and demand.

KCK is also committed in providing contract manufacturing for a wide array of pharmaceutical product which includes pharmaceutical dosage forms, such as tablets, liquids, creams & ointments and repacking activities. KCK’s manufacturing site is lead by excellent talents, equipped with advance manufacturing structure and a robust quality control laboratory. As an organisation, KCK is committed to continuously evolve and increase its business standards and capabilities to cater to the emerging and international market.
